

FUTURE of AWICS

- ▶ **Current AWICS connectivity**
 - Wi-Fi operating at 2.4GHz is supported. (802.11A, B &G)

- ▶ **Future interface modules – adds connectivity to other radio bands**
 - LMR (UHF) for voice/data capability. To switch from 25KHz to 12.5KHz channels requires only changing low cost head end unit. All other components of AWICS can be reused.
 - 800 MHz
 - 900 MHz
 - P25
 - NextGen
